EXPERIENCE

Amtil – Phoenix, Arizona

Chief Technology Officer
June 2021 – Present

**Unity Developer/
Full Stack Engineer**
March 2021 - Present

- Deliver consistent progress on application development using Agile Methodologies (2-week sprints using Jira tickets, Confluence, Figma)
- Manage 3-7 software engineers in the development of a minimum viable product as well as a content management system for the application using weekly live stand-ups and asynchronous stand-ups using Range.
- Perform MySQL database creation, alteration, and management in accordance with application needs.
- Manage and build Unity based content to embed in the application
- Write parts of the application using React.js and Chakra UI CSS
- Establish backend infrastructure using AWS S3 for media storage, Amazon RDS to house our MySQL database, and AWS EKS for our CI/CD process, and Echo3D for our 3D object storage.
- Create comprehensive technical documentation and diagrams to share with leadership and new team members
- Interview and on-board new engineering interns

Skye Lucking Art & Design – Phoenix, Arizona

Fine Artist & Muralist
Nov 2017 – Present

- Works with fine-art and mural clients to manifest their creative vision
- Creates concept-sketches, manages scope and logistics, and effectively communicates progress milestones for large painting and interior design projects
- Creates post-production pictures and time-lapse videos of process
- Built on-line art-products storefront using Shopify called "Joyful Geometry"

Courageous Creatives YouTube Channel – Phoenix, Arizona

Host, Editor, & Producer
Jan 2018 – Jul 2019

- Purpose of channel was to 'elevate you to your highest self through inspiration, education, courage building, and community.'
- Filmed, interviewed, edited, produced, and promoted over 85 videos for the Courageous Creatives YouTube Channel which interviewed some of the most dynamic creatives in Arizona
- Worked closely with the leadership team of F.A.B.R.I.C (Fashion and Business Resources Innovation Center) in Tempe to create an educational series on fashion production called "Haute Tips"

BSP Software > Avnet > Tech Data – Phoenix, Arizona

Technical Sales >

Global Channel Mgr. >

Marketing Project Mgr.
Nov 2012 – Nov 2017

- Over the course of 5 years and 3 acquisitions my role changed within the same working group.
- As a Technical Sales Representative, I demonstrated the benefits and complexities of our company software (MetaManager) to potential clients on behalf of the BSP Software sales team. These presentations were often to C-level executives.
- As the Global Channel Manager, I developed and maintained productive relationships at all levels of partner organizations, including executive leadership, sales, event marketing, and pre-sales engineering

Olenick & Associates – Buenos Aires, Argentina

Recruiter,
Training Development &
Technical Writer
Sep 2010 – May 2011

- Sourced, screened, and interviewed candidates in the Buenos Aires market.
- Sourced and screened technical candidates in the Chicago and surrounding areas.
- Technical writer for marketing/web copy of company
- Developed training materials for internal use which include instructional videos, scripts, and manuals for other recruiters

Hoya Vision Care – Dallas, TX

Cognos Administrator &
Staff Trainer
Jul 2007 – July 2009

- Created the curriculum for and conducted companywide training on the upgraded Cognos 8 environment
- Created online training resource which included customized manuals and videos of commonly used functions in Cognos using Dreamweaver CS3 and Camtasia Studio
- Used Cognos Framework Manager and PowerPlay Transformer to create a project and model for our Sales data cube and continued to make adjustments/additions as necessary
- Created a 'Sales Dashboard' to streamline Cognos use among Hoya sales force

United States Peace Corps – Apia, Samoa

Volunteer,
Computer Studies Teacher,
Web Developer
Oct 2004 – Dec 2006

- Taught classes to young adults in the Microsoft Office Suite (Introduction and Advanced Word, Access, Excel). I also taught classes in Desktop Publishing which emphasized layout and design concepts as well as using Adobe Photoshop 7.0 and Adobe PageMaker 7.0.
- Developed a database and all graphics for the Samoa AIDS Foundation website using ASP, Adobe Photoshop, Microsoft Access, and Macromedia Dreamweaver Ultradev MX.

Kerr-Mcgee Corporation – Oklahoma City, Oklahoma

Data Warehousing
Analyst &
Company Trainer
Jul 2001 – Sept 2004

- Designed and developed a `New Hire Online Orientation' website for the Human Resources department using Macromedia Flash, Dreamweaver Ultradev, Adobe Acrobat, and Adobe Photoshop.
- Created a security-request website for the Data Warehousing teams (using Dreamweaver Ultradev and Adobe Photoshop) which integrated with Outlook and the company's Technical Support (trouble ticket) system.
- Developed the curriculum for and taught corporate training program for all Cognos Impromptu and PowerPlay users. This program included weekly workshops for Impromptu report writers, a technical training manual for PowerPlay users, corresponding .avi files of often used functions (using Camtasia software), and training classes in branch offices.
